SUMMARY

Front End Developer with over 3.5 years of experience in creating dynamic and responsive web applications. Proficient in JavaScript and TypeScript, with a strong focus on using React for building user interfaces. Also developed modern web applications using Next.js for better performance. Skilled in version control with Git Proficient in utilizing UI libraries like MUI and Ant Design for streamlined and efficient component-based development, as well as Yup for schema validation. Dedicated to problem-solving and continuously learning new technologies to improve development efficiency and product quality.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript
Frameworks and Libraries: React, Next.js, Redux, React Testing Library, MUI, Ant-D, Yup
Developer Tools: Git, BitBucket, Gitlab, Yarn, Npm, Pnpm
Web Technologies: HTML, CSS, SCSS, Restful APIs

EXPERIENCE

Front End Web Developer : DLT Apps   Jan. 2022 – Present

Project: QKVIN

- Developed and maintained a high-performance, user-friendly front-end application using React as a team, ensuring seamless user experience and fast load times.
- Collaborated with cross-functional teams, including backend developers, designers, and product managers, to gather requirements and deliver optimal solutions.
- Utilized TypeScript to enhance code quality and maintainability and reducing runtime errors.
- Addressed and resolved front-end issues and bugs promptly, enhancing the overall stability of the application.
- Utilized Git and GitHub for version control, managing code repositories, and facilitating code reviews and collaborative development.
- Engaged in agile development processes, participating in daily stand-ups,deployment of envs at Sprint End, sprint planning, and retrospectives to continuously improve team productivity and workflow.
- Awarded as "Employee of the Year for - 2023 "

Project: FinBridge

- Single handedly developed a fully responsive, static website using Next.js, ensuring a seamless user experience across all devices.

Project: Zilo

- Developed and maintained a user-friendly web application for Zilo using React by Collaborating with the Zilo team to gather requirements and deliver optimal solutions for the application.
- Employed Yup for form validation, ensuring data integrity and providing clear, user-friendly error messages.

Junior Front End Engineer : Piktorlabs   Dec 2020 - Jan 2022

Project: VERA

- Contributed as a Junior Front End React Developer to the VERA project, a dynamic web application aimed at enhancing user engagement and experience.
- Demonstrated a proactive attitude towards learning and self-improvement, continuously enhancing skills in React.js and front-end development best practices.
- Gained hands-on experience in building responsive user interfaces and implementing user interactions using React.js components.

EDUCATION

PES University   Bengaluru, India
Engineer's Degree, Electronics and Communication   *2016 - 2020*
